AMONG THE AUTOMOBILISTS

WARRING IMPORTING FIRMS IN ONE ASSOCIATION.

"Independent" and "Licensed" Dealers in Foreign Muchines Consolidate Their interests-Hower Trophy in A. A. A. Tour to Be for Individual Contestants.

Peace reigns supreme among the importers of automobiles in this city, which virtually means the whole United States so far as the foreign automobile industry is concerned, for the "independent" and the "licensed" dealers in imported machines have joined forces and will hereafter work together in union and in harmony. Practically all of the "independent" importers of any prominence, with one or two notable exceptions, have decided to become members of the Importers' Automobile Salon and the concerns which were forming the to-be rival organiza tion, the Automobile Importers' Society, will not go any further forward with its formation. E. Rand Hollander, vice-president of the Importers' Automobile Salon, esued the following statement regarding the matter yesterday:
"Aswell attended meeting was held Monday

afternoon. May 6, at 4 o'clock, in one of the committee rooms of the new clubhouse of the Automobile Club of America, of the independent importers, under the chairmanship of Gaston Rheims. The purposes of the meeting were fraught with the highest im-portance to the entire automobile importing industry in this country, as those attending the meeting were called upon to decide whether they would continue with the organization of the new Automobile Importers' Society or join the older organization, the Importers' Automobile Salon, thus forming one representative and powerful association, ose objects are to foster and protect the in dustry represented by its members. For some time it has been the desire of the leading spirits in both groups of importers to do away with any friction or discord which would tend to weaken the industry in the eyes of the American public, and there were not a few of possibly insignificant obstacles in the way before consolidation of all recognized importers could be effected.

"A committee consisting of Gaston Pheims

"A committee consisting of Gaston Rheims, C. G. V.; André Massenat, Panhard, and Paul La Croix, Renault, had been for some weeks negotiating with a committee of the Importers' Automobile Salon, consisting of C. R. Mabley, Isotta Fraschini, and E. R. Hollander, Fiat, and as a result of numerous meetings between these two committees two plans were drawn up and duly submitted at the meeting on Monday. The more de-sirable one, that which contemplated con-solidation of all the importers in this city by their joining the Importers' Automobile Salon in a body, was finally adopted by a unanimous vote, and Mr. Hollander, representing the salon, was then called into the meeting and formally informed of the decision reached by those present at the meeting. This action was subscribed to by the following gentlemen, who were present at the meeting: André Massenat, Panhard: Gaston Rheims. C. G. V. Paul La Croix, Renault: E. Lillie, Itala; Paul De la Chesnaye, Zust: William H. Barnard, Pilain, and Delahaye; Percy Owen, Bianchi Alexander Thackara. Westinghouse: William Walker, La Buire, and Julian Bioch, Motobloc. In addition to those present Mr. Rheims announced that there were three or four other firms that had been unable to attend the meeting who would act in accordance with those above mentioned and forward their applications at once for membership in the salon. and formally informed of the decision reached

applications at once for membership in the salon.

"This is probably one of the most important moves ever made in this country by the importers of foreign machines and will undoubtedly result in tremendous benefit to that industry as well as to the consolidation of their enormous combined interests, which can only act advantageously for the best interest of all importers, as the associations of American automobile manufacturers have done for the American industry. Naturally it goes without saying that all the present and new members of the Salon will exhibit at the Salon show to be held in Madison Square Garden next winter, and in this show exclusively. Any importers who are not sufficiently established in this country, to deem it advantageous to join the Salon at the present time, and dealers in imported cars—though not direct importers—will of course, be given space at the same prices as the members of the Salon and receive the same treatment as the members."

Announcement was made yesterday that it has been decided to change the conditions governing the awarding of the Hower trophy in the 1907 tour of the American Automobile Association next July. When F. B. Hower, chairman of the A. A. A. touring board, offered this trophy, which is to be contested for by runabouts, he stipulated that it was to be contested for by tearns of not less than three cars representing affiliated clubs under the same rules that the club teams of three or more will try to win the Glidden trophy this year.

more will try to win the Glidden trophy this year.

After consultation with a number of those interested, however, Mr. Hower has decided to offer the trophy as an individual prize, to be won as a permanent trophy by some one owner and entrant. The executive committee of the touring board is now engaged in framing a set of rules to govern the contest for the Hower trophy. The trophy is a magnificent piece of decorative art, larger and handsomer in every way than the trophy that was offered as an individual prize in last year's four. It is a bronze statue four feet high, representing the "Signal Man." It consists of a slightly draped athletic male figure standing on a hill-top holding in one hand a spear at rest and above his head a toroh in the other hand.

The preliminary survey and laying out of

above his head a torch in the other hand.

The preliminary survey and laying out of the route for the tour began early yesterday when Secretary D. H. Lewis of the touring board and a photographer left Buffalo in the the six cylinder Pierce which Forbes Dey drove in last year's tour. This work will be done under the direct supervision of Chairman Hower, who will travel in the car part of the time. He says he will have the work done properly if the trip takes tour weeks. Every turn in the road and all useful landmarks are to be noted and the distances between points carefully measured.

marks are to be noted and the distances between points carefully measured.

Harrisburg, Pa., May 7.—Despite a heavy dewnpour of rain in this section of the State all day the first annual endurance run of the Harrisburg Motor Club, covering 205 miles, was finished this afternoon at 2:17 o'clook, when the Pullman car driven by E. C. Irvin, Steelton, crossed the fine without a penalty, winning the silver cup for fouring cars. The run to-day covered 116 miles, and was covered by the winner in four hours. E. L. Leinbach, driving a Stoddard-Dayton, won the cup for runabouts, reaching this city at 2:30.

Bidney E. Hamburger, driving a Thomas touring car, was the first to arrive at the finish after the confetti car, pulling up at the tape without a point against him. He called to the judge, who told him to cross the line, even though he was twelve minutes ahead of time. According to the rules of the club he is penalized 24 points for registering befere time. Only four cars finished without a point registered agaist them.

The cars continued arriving at short intervals during the entire afternoon, all reporting the roads in a very bad condition, due to the heavy rains to-day. Several bad accidents were reported. A Cadillac car, driven by C. C. Crisben, ran into a fence near Chambersburg and turned a complete somersault. The occupants were not injured, but the rear axle was snapped off near the right wheel. At Marietta the fire companies of the town turned out in full force and cheered and rang the fire bells as the cars passed through the place. At Hanover the speed laws were walved by the authorities and men placed at all crossings to prevent accidents.

The cups will be presented at a meeting of the club. Much interest was taken in the run by residents over the singe, president of the club. Much interest was taken in the run by residents over the singent the line.

WEST CALDWELL, N. J., May 7.—An attempt will be made by the authorities of west Caldwell to stop the especing of autoisoolies through the borough. For several months past the drivers of autos have shot through the principal streets without regard to the danger to life and limb. No efforts were made to balt them every when at times one of the four constables would shout a warning, but that only seemed to amuse the occupants of the machines. The constables, who wear badges as large as the cover of a tin pail, gave up the job in disgust. Now a marshal will be appointed and he will have two deputies to assist him. They will be stationed at different points and if they fail in stopping the autos "bumps" will be constructed on the principal hishways.

The North May 7.—The State Department.

TRENTON, May 7.—The State Department of Motor Vehicles purchased to-day a high power automobile capable of running sixty-live miles an hour. The car will be used by inspectors of the department in running down violators of the speed laws on some of the more frequented country roads.

The local authorities of Cape May, N. J., have decided to do all in their power to attract a utomabilists to that Jersey coast town. They have accordingly determined to have

FORD Six Cylinder \$2,800 Touring Car \$2,800 SIX CYLINDER SUPERIORITIES

In a Nutshell:

PERFECT BALANCE-TOTAL LACK OF VIBRATION -LIGHTER WEIGHT-GREATER EFFICIENCY -FLEXIBILITY-LONGER LIFE.

In short, every factor that tends to shorten the life of the car has been eliminated in the Six Cylinder Car.

THE TIDAL WAVE OF "SIXES" has swept the year-behind advocates of "fours" off their feet.

THE FORD SIX IS THE ONLY SIX that has passed the experimental stage. We began two years ahead of all others. We have built more sixes than any other concern in the world. The 1907 Ford six-cylinder car is a refinement of the 1908 model. Power increased 20 per cent. by refinements of details; dual system of ignition (high tension magneto and storage battery with double set of spark plugs) retained.

the main road between the Cape and Phila-delphia put into first class condition, and will keep the roads through the town in good condition. There is also a prospect that there may be a series of short distance straight-away racing events held on the beach some time this summer.

New England automobilists with hill climbing aspirations which they had hoped to satisfy on Memorial Day & Worcester on Dead Horse Hill and who have mourned the decision of the Worcester club not to run the event this year will have an opportunity to try the hill climbing abilities of their cars at Bridgeport. The Automobile Club of Bridgeport has arranged to run a series of contests on the grade at Sport Hill, at Easton, which is just five miles from Bridgeport. The hill is about a mile and a quarter long and is very steep in places. The competing cars are to be classified by price, cars selling up to \$1,000 inclusive being in class 1, up to \$2,000 inclusive, in class 2, up to \$3,000 inclusive in class 3, over \$5,000 in clusive in class 5, over \$5,000 in clusive in class 5. All of the events are open to any automobilist and the contests will be run under the rules and sanction of the American Automobile Association. A. L. Riker of Bridgeport will be marshal of the day.
